fertilizer tablets

FERRATAB

Ferratab fertilizer tablets are developed with the aim to improve fertilizer application and productivity in home gardens.

Scientifically designed easy-to-use product line that includes various complex fertilizer formulations pressed in the form of tablets and adapted for different gardening purposes. Every Ferratab tablet contain all essential nutrients and trace elements and unlike other fertilizers, these tablets act on the soil as well as feeds the plant itself. Smart fertilizers technology extends its usefulness and solubility for three to six months from the moment of application. Humic, fulvic and amino acids that are added during the production proccess makes it a very special product for gardeners.

Every tablet is plant food during the growing season.

Technology:
Smart fertilizers

To get things done at once

easy-open lid preventing product from caking during prolonged use.

individually developed formula for each crop.

all nutrients are packed inside large 9g tablet.

explained use for different crops.
